Herrick Archives Number 165

## A. IDENTIFICATION & LOCATION

### 1. Name

1.1 Never officially named by Board of Trustees action.

1.2 Alternate names noted:

Wood Working Shop

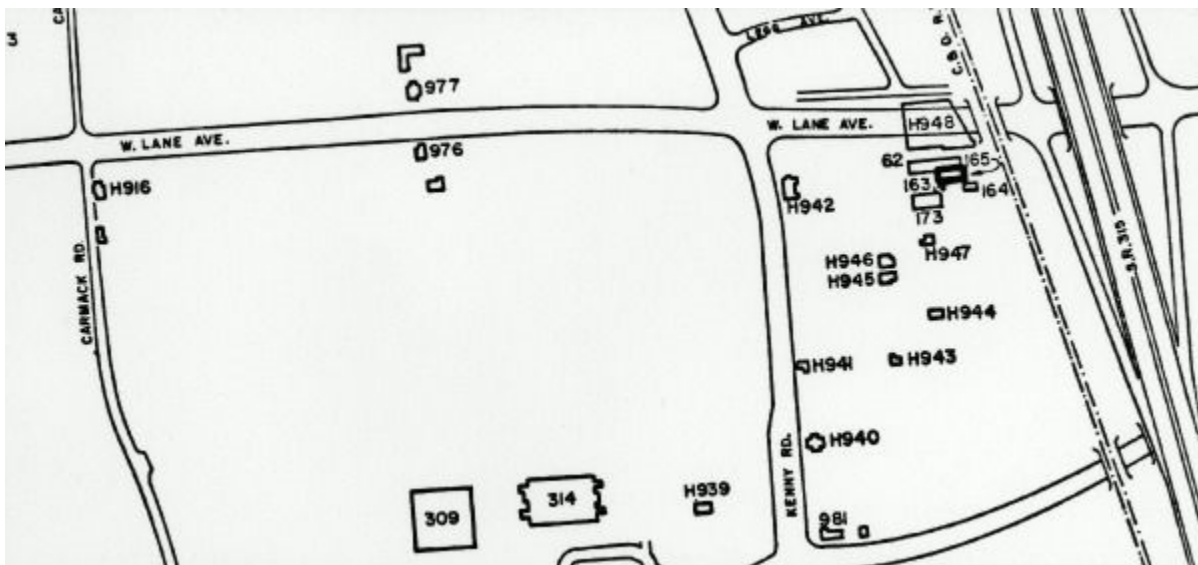

Built under the name of "Veterans Educational Facilities, Building 9C, Farm Management Laboratory."

### 2. Location

2.1 Located at 2332 Kenny Road. See map below.

Note: Carried in Campus Planning lists as 2331 Kenny Road. Since the location is on the "even" side of the road, it is changed in this report to 2332 Kenny Road.

2.2 For greater detail, see Sheet 66 in the book of campus maps in the University Archives. (Some editions of Sheet 66 show Buildings 165 and 062 as one structure. This probably is due to the fact that the roof lines are so close that separation is not apparent in the aerial photographs from which the maps were made.)

For identification of other buildings shown, see Appendix A.

### 3. General Description

3.1 Type of construction:

Corrugated sheet metal on concrete block foundation wall.

3.2 No. of stories:

One story.

3.3 Increments of construction:

No additions.

3.4 Present area of building as shown in inventory records of Division of Campus Planning:

3.4.1 Several years ago, this building was added to Building 062 for inventory purposes and is carried as Room 2 with an area of 552.5 square feet.

3.4.2 The March 19, 1971 inventory summary shows Building 165 as a separate 16' x 73' structure (and it is in fact separate) with an area of 1168 square feet.

3.4.3 Building 165 is actually 16' x 36'; inventory records are and were in error.

See Addendum No. 2
